Have you and your family been affected by cancer?
Would you like to improve cancer care and
outcomes in your community?

Michigan Cancer HealthLink is excited to announce the launch of a new Cancer Action Council in partnership with Macomb County Health & Community Services. The council will be located in Mount Clemens and will specifically address the needs and issues concerning cancer in Macomb County.

We are looking for cancer survivors, cancer caregivers, or cancer advocates who live in Macomb County.

Council members are asked to make a 12 month commitment and attend at least one council meeting per month.

Members will receive a stipend for their participation.

Cancer Actions Councils (CACs) are groups made up of community members and representatives from community-based organizations who apply their knowledge about local cancer issues to improving the lives of cancer patients, survivors and caregivers in their communities.
